COMPETENZE PERSONALI

MOTHER TONGUE

English

My English formation started at the age of seven, when my father, for his job, was moved to London. The whole family moved there and since then I have always attended English schools and collages, thus making English my first language and Italian my second language. I had the opportunity to study for my Parliamentary Interpretation Degree in 4 different countries for the duration of all my 5 years course, those countries being: U.K., France, Spain and Italy. Having completed my degree I had the opportunity to continue my studies in the U.S.A., more precisely at Berkeley University where I stayed for a total of 3 years and finished my schooling obtaining a doctorate.
